Slide 1: Welcome and Thank You!?

Welcome to ISCAS-2025 review guidelines presentation! As a reviewer for ISCAS, your feedback is crucial in helping us select the best papers for the conference.

Slide 2: Decision Recommendations

Decision recommendations are based on four main categories:

- **ACCEPT**: Represents excellent technical work & is well written.
- **MARGINAL ACCEPT**: Needs some changes to enhance its technical or presentation quality.
- **MARGINAL REJECT**: Content, style, examples, description of previous work or results needs major improvement.
- **REJECT**: Seriously deficient & should not be considered for this conference.

Slide 3: Confidence Level

Confidence level is important in providing constructive feedback. We use a scale from Highest to Lowest, with each level indicating increasing certainty.

Slide 4: Relevance to the Conference

Relevance refers to how well the paper addresses the conference topic. We use a scale from Excellent to Very Weak, with each level indicating increasing irrelevance.

Slide 5: Originality of the work

Originality refers to the novelty and creativity of the paper. We use a scale from Excellent to Very Weak, with each level indicating increasing originality.

Slide 6: Presentation Format Recommendation

Finally, we consider the presentation format. Lecture is best suited for longer papers with in-depth discussions, while poster is suitable for shorter papers or those with visual components.

Slide 7: Thank You

Thank you for participating in this scholarly activity. Thank you for volunteering your time and effort.
